5500 - **STUDENT CONDUCT**

Respect for law and for those persons in authority shall be expected of all students. This includes conformity to school rules as well as general provisions of law affecting students. Respect for the rights of others, consideration of their privileges, and cooperative citizenship shall also be expected of all members of the school community.

Respect for real and personal property; pride in one's work; achievement within the range of one's ability; and exemplary personal standards of courtesy, decency, and honesty shall be maintained in the schools of this District.

The Principal shall notify all school personnel as to their obligation to report to the Principal those acts and/or crimes which pose a threat to school safety. School personnel must also properly document the disposition of any such incident.

Zero Tolerance Policy

The School Board has zero tolerance for conduct that poses a threat to school safety. Zero-tolerance policies must apply equally to all students and are not intended to be rigorously applied to petty acts of misconduct. This policy minimizes the victimization of students, staff, and volunteers and requires that necessary steps be taken to protect the victim of any violent act from any further victimization. In a disciplinary action, there is a rebuttable presumption that the actions of a student who intervened, using only the amount of force necessary, to stop a violent act against a student, staff, or volunteer were necessary to restore or maintain the safety of others.

Florida law requires that students found to have committed one of the following offenses:

- A. bringing a firearm or weapon, as defined in F.S. Chapter 790, to school, to any school function, or onto any school-sponsored transportation, or possessing a firearm at school; or
- B. making a threat or false report, as defined by F.S. 790.162 and 790.163, involving school or school personnel's property, school transportation, or a school-sponsored activity;

shall be expelled, with or without continuing educational services, from the student's regular school for a period of not less than one (1) full year and shall be referred to mental health services identified by the District and to the criminal justice or juvenile justice system.

The Superintendent may consider the one (1) year expulsion requirement on a case-by-case basis and request that the Board modify the requirement by assigning a student to a disciplinary program or second-chance school. The Superintendent's request for modification must be in writing and may only be presented to the Board for consideration if the student and/or the student's parent(s) agree in writing to accept the Superintendent's recommendation. The Board may approve the request if it is determined to be in the best interest of the student and the school system. If a student committing either of the offenses enumerated above is a student who has a disability, the Board shall comply with applicable State Board of Education rules for the discipline of such students.
