## 8420 - EMERGENCY MANAGEMENT, EMERGENCY PREPAREDNESS, AND EMERGENCY RESPONSE AGENCIES

### Emergency Management and Emergency Preparedness

The School Board recognizes that its responsibility for the safety of students and staff requires that it formulate and prescribe in consultation with appropriate public safety agencies emergency management and emergency preparedness procedures for all public schools in the District, including emergency notification procedures for life-threatening emergencies, including, but not limited, fires; natural disasters; bomb threats; weapon-use, hostage and active assailant situations; hazardous materials or toxic chemical spills; weather emergencies, including hurricanes, tornadoes, and severe storms; and exposure as a result of a manmade emergency and that such emergencies are best met by preparedness and planning. Such procedures shall meet the requirements of the State Board of Education rules.

Policies and procedures for emergency drills and fire drills shall be developed in consultation with the appropriate public safety agencies, including at a minimum, law enforcement, fire service, and emergency management.

The active assailant situation training for each school must engage the participation of the School Safety Specialist, threat assessment team members, faculty, staff, and students and must be conducted by the law enforcement agency or agencies that are designated as first responders to each school's campus.

Pursuant to Policy 8405 - School Safety and Security, the Superintendent (in conjunction with the School Safety Specialist) shall develop, and revise as necessary, a School Safety Plan to provide for the safety and welfare of the students and staff, as well as a system of emergency preparedness and accompanying procedures that provide for the following:

- A. a listing of the commonly used alarm system response for specific types of emergencies and verification by each school that drills have been provided as required by law and fire protection codes (such drills shall include accommodations conducted at exceptional student education centers);

- B. the health and safety of students and staff are safeguarded;
- C. embraces a collaborative effort with community emergency responders;
- D. the time necessary for instructional purposes is not unduly diverted;
- E. minimum disruption to the educational program occurs;
- F. students are helped to learn self-reliance and trained to respond sensibly to emergency situations;
- G. the system is supported by ongoing training that will include practical application and appropriate "drills" as required by F.S. 1001.42;
- H. evacuation drills should represent actual emergencies, including, but not limited to active assailant, fire, and natural disasters.
- I. emergency egress and relocation drills (including, but not necessarily limited to, fire drills) in accordance with the requirements of the Florida Fire Prevention Code, the Fire Code (NFPA 1), and the Life Safety Code (NFPA 101);
- J. drills for active assailant and hostage situations shall be conducted in accordance with developmentally appropriate and age-appropriate procedures at least as often as specified in State Board of Education rules; and

Law enforcement officers responsible for responding to the school in the event of an active assailant emergency, as determined necessary by the sheriff in coordination with the District's School Safety Specialist, must be physically present on campus and directly involved in the execution of active assailant drills. The District's School Safety Specialist must notify law enforcement officers at least twenty-four (24) hours before conducting an active assailant emergency drills at which such law enforcement officers are expected to attend.

- K. floor plans of each school must be provided to all community emergency responders in support of evacuation procedures.

The District shall comply with the school safety requirements in accordance with F.S. 1006.07(6)(f), including the following:

- A. All gates or other access points that restrict ingress to or egress from a school campus shall remain closed and locked when students are on campus. A gate or other campus access point may not be open or unlocked, regardless of whether it is during normal school hours, unless:
  1. attended or actively staffed by a person when students are on campus;
  2. the use is in accordance with a shared use agreement pursuant to F.S. 1013.101; or,
  3. the School Safety Specialist, or designee, has documented in the Florida Safe Schools Assessment Tool portal maintained by the Office of Safe Schools (OSS) that the gate or other access point is not subject to this requirement based upon other safety measures at the school. The office may conduct a compliance visit pursuant to F.S. 1001.212(14) to review if such determination is appropriate.
- B. All school classrooms and other instructional spaces must be locked to prevent ingress when occupied by students, except between class periods when students are moving between classrooms or other instructional spaces. If a classroom or other instructional space door must be left unlocked or open for any reason other than between class periods when students are moving between classrooms or other instructional spaces, the door must be actively staffed by a person standing or seated at the door.
- C. All campus access doors, gates, and other access points that allow ingress to or egress from a school building shall remain closed and locked at all times to prevent ingress, unless a person is actively entering or exiting the door, gate, or other access point or the School Safety Specialist, or designee, has documented in the Florida Safe Schools Assessment Tool portal maintained by the Office of Safe Schools that the open and unlocked door, gate, or other access point is not subject to this requirement based upon other safety measures at the school. The office may conduct a compliance visit pursuant to F.S. 1001.212(14) to review if such determination is appropriate. All campus access doors, gates, and other access points may be electronically or manually controlled by school personnel to allow access by authorized visitors, students, and school personnel.
- D. All school classrooms and other instructional spaces must clearly and conspicuously mark the safest areas in each classroom or other instructional space where students must shelter in place during an emergency. Students must be notified of these safe areas within the first ten (10) days of the school year. If it is not feasible to clearly and conspicuously mark the safest areas in a classroom or other instructional space, the school safety specialist, or designee, must document such determination in the Florida Safe Schools Assessment Tool portal maintained by the OSS, identifying where affected students must shelter in place. The OSS shall assist the School Safety Specialist with compliance during the inspection required under F.S. 1001.212(14).

Persons who are aware of a violation of the requirements must report the violation to the Principal. The Principal must report the violation to the school safety specialist no later than the next business day after receiving such report. If the person who violated this paragraph is the Principal or charter school administrator, the report must be made directly to the Superintendent or charter school governing board, as applicable.

Instructional and administrative personnel, as well as educational support employees and managers, as defined in F.S. 1012.01 who knowingly violate school safety requirements shall be subject to the District's progressive discipline policy which may include, but is not limited to, verbal warning up to termination of employment. The seriousness of the employee's violation of a school safety requirement and any prior disciplinary offenses will be taken into consideration in determining the appropriate discipline to be implemented..

All threats to the safety of District facilities, students and staff shall be identified by appropriate personnel and responded to promptly in accordance with the plan for emergency preparedness. Any aspect of the emergency preparedness plan and/or procedures that are included in the School Safety Plan shall remain confidential and exempt from public records disclosure in accordance with State law.

The Superintendent, as part of the development of the emergency preparedness plan and procedures, shall establish a schedule to test the functionality and coverage capacity of all emergency communication systems and determine if adequate signal strength is available in all areas of school campuses.

Completion of emergency drills shall be documented at all school facilities in the District.

An after-action report must be completed following each emergency drill and fire drill. After-action reports must:

- A. identify the type of drill, location and date of the drill, participants, and involvement of law enforcement or other public safety agencies;
- B. describe actions taken by participants;
- C. analyze areas of success and areas where improvement is needed;
- D. include input from public safety agencies; and,
- E. include a plan for corrective action.

After-action reports must be submitted to the District school safety specialist for review fifteen (15) calendar days following completion of the drill.

The District shall maintain a record that is accessible at each school or by the OSS of all current school year and prior school year drills conducted, including the names of law enforcement personnel present for each active assailant emergency drill.

### **Alyssa's Alert/Mobile Panic Alert System**

In accordance with the requirements of F.S. 1006.07, the District shall implement a mobile panic alert system. The District will select a system under contract with FL DOE or procure a different system. The District will maintain current listings of mobile panic alert systems implemented by all public schools, including charter schools, within the District. Such list shall include the school name, address, and MSID number, and vendor or application implemented. The list will be provided to the Office of Safe Schools via-email by August 1, 2022, and will be updated within five (5) school days of a school opening or closing, or when any other change occurs that impacts the accuracy of District-provided information.

The District's mobile panic alert system will include devices placed throughout each school campus. In determining the number and placement of devices needed to afford all staff members the ability to silently and easily activate a panic alert in the event of an on-campus emergency, the District will consider using a combination of fixed panic alert buttons, mobile and desktop applications, landline phone capabilities, and wearable panic alerts (such as on a lanyard).

The District's policies and procedures related to Alyssa's Alert/Mobile Panic Alert Systems will be developed in consultation with the County 911 authority and local emergency management office to ensure that the system integrates with local public safety answering point (PSAP) infrastructure to transmit calls and mobile activations.
